HEADLINE: COVID-19 Data to be Updated Weekly

LEWISTON, IDAHO – Public Health – Idaho North Central District (PH-INCD) will begin updating the district’s COVID-19 monitoring and tracking of coronavirus on its website weekly rather than daily. Weekly updates will begin Thursday at 3 p.m.

Future updates to the COVID-19 data will continue each Thursday at 3 p.m.

PH-INCD has recognized that interest in COVID-19 monitoring and tracking data has decreased, but people and organizations who still use the data will continue to be able to break the data down by each day under the new weekly reporting schedule.

The data tool at <https://idahopublichealth.com> tracks COVID-19 cases and deaths within Clearwater, Idaho, Latah, Lewis, and Nez Perce counties. The data will continue to be available to the public on the district’s website.

For more information about COVID-19 please see our website at: <https://idahopublichealth.com/district-2/novel-coronavirus>.
